Making dreams come true.

A photograph of an indoor golf simulator facility. Several people are seated in the foreground, looking towards three large projection screens. The screens display virtual golf courses and players in mid-swing. The room is dimly lit, with the primary light source being the screens. The title 'Golf Year-Round ... In Erie, PA' is overlaid in large, white, bold letters with a black outline.

Golf Year-Round ... In Erie, PA

by Tony Arrigo

Even though Beechwood Golf Club is in the northern part of the country in Erie PA, we are still able to have a slogan that says, “golf year-round”. We do this with three state of the art TruGolf indoor golf simulators. Couple these simulators with our normal golf season (hopefully April through October) and we are golfing year-round! We take pride in the fact we can keep people golfing all year long and are always looking to improve our offerings to our customers.

Patrons enjoy food and drinks while using the indoor golf simulator.

Our outdoor 18-hole course boasts two distinctive styles on the front nine and back nine. The front nine is a little more open and forgiving off the tee box, while the back 9 becomes more challenging from tee to green and starts you off with our Signature Island Green Hole #10. The outdoor course is always improving year by year and week to week. Currently a big focus is on the back nine irrigation, but there are always projects going on around the entire course each year.

Whether you are looking to upgrade your game on the virtual driving range or play 9 to 18 holes of outdoor golf, Beechwood Golf Club has you covered. The Arrigo family has been looking after Beechwood GC for 11 years and strive to create a better golf experience each year. Whether it is new equipment to take care of the course or small upgrades on the tee box, we want each year to be better than the last. Starting with one private simulator in 2017,

our facility has grown to three full service golf simulator bays. Leagues have grown each year with many different formats, including Two-Person Scramble and Couples Leagues. With different driving range games (closest to the pin) and over 100 golf courses to choose from around the world, our simulators have something for everyone. Add in high quality service, food and drinks, and you have a great experience waiting for you.

The golf simulators have been a big boost during the cold and dreary off-season for us here in the Northwest Pennsylvania. Whether it's a high school golfer looking to train year-round or some friends coming out for food, drinks and golf, the simulators always deliver an enjoyable experience. We are always looking to improve the customer experience at BWGC and we now offer golf lessons and golf fitness training for anyone interested on our simulators or on the course.

The Historic Riverside Golf Course

by Zack Hale

While the origins of golf are traced back to Scotland in the 15th century, it took some time for golf to really take hold in the United States. The USGA was founded in 1894, and golf quickly became one of the favorite recreations of Americans. In the early 1900s, golf courses were being built around the country primarily by private clubs and resort hotels. The popular resort town of Cambridge Springs was no exception. William Baird of the Riverside Hotel started constructing a 9 hole course just north of the hotel in 1915. He commissioned Herbert Lagerblade, a former assistant to the famed architect Donald Ross, to design the layout and it was quickly touted as one of the best golf courses in the north. Golf in Cambridge Springs became so popular that Baird decided he needed to add an additional 9 holes. He again contacted Lagerblade and in 1923, Riverside Hotel Golf Course became the first public course in Northwest PA to have an 18 hole track.

For much of the 1900s, Riverside Golf Course was widely considered to be one of the finest courses in Western PA. Over the years, it has been played by Masters, US Open, and PGA Champions, along with a number of World Golf Hall of Famers, including some amateur women who were considered the best in the world. Follow Riverside Golf on Facebook as we will be digging through the archives this summer and telling more of our story and impact of some of the famous and unique characters who have played Riverside over the years.

Sitting alongside routes 6 and 19, just north of Cambridge Springs, Riverside Golf is experiencing a renaissance. After years of gradual decline in the maintenance of the course, clubhouse, dining room, and event center, it was purchased in the spring of 2021 with the vision of making it once again the Queen of Northwest PA. Under the direction of Superintendent Michael Bochert, the course has made a remarkable turnaround in just three seasons. Significant improvements to drainage and irrigation have the course drier than it has been in decades, and our guests are constantly remarking at how playable the course has been shortly after heavy rains. The greens are some of the nicest in the area, and the layout has been a favorite for a century of play. The par 71 has a variety of holes that require all of your clubs and attention. The flat terrain make this an easy walking course or for the more adventurous golfer, rent our FINN Cycles (look them up, they are awesome), but make your reservations early because weekend rentals fill up quickly.

Bring your spouse to play and dine or invite them to meet you after finishing your round and join you in our restaurant The Rambler. If you play your cards right, you might just get permission to do it again the following week. If you haven't been out to see Riverside Golf in the last few years, plan on making a trip here this summer. Follow us on Facebook or check out our websites golfttheriverside.com and dinetherambler.com for more information. Hope to see you soon and long live the Queen.

GOLF COURSES THROUGHOUT TRI-STATE REGION
